YOUNG EXECUTIVES ENTERPRISE

FUNDING TODAY A BRIGHTER TOMORROW

Own an Aged Corporation. Start With History, Not From Zero.

A company incorporated years ago and kept clean and in good standing. You take ownership of an established business, ready to operate from day one.

What an aged corporation does for you

1
Instant credibility
Clients, vendors, and partners take a company with years behind it seriously, from day one.

2
Meets time in business rules
Many lenders want a business around two years or more. You already meet that rule.

3
A head start on business credit
Vendor accounts, trade lines, and credit profiles attach to the corporation and its history.

4
Doors a new company cannot open
Contracts and larger deals often require age and a track record a startup does not have yet.

5
Your personal side stays protected
The corporation is its own legal entity, separate from you personally.

6
Ready to operate now
No waiting to form a company. Ownership transfers to you, ready to operate.

STEP 1
Pick your corporation
Choose from corporations with real age and a clean record, matched to your goals.

STEP 2
We verify and transfer
Every corporation is researched and verified before purchase, then ownership transfers to you.

STEP 3
You start building
Operate, build business credit, and go after the contracts and funding a new company cannot.

THE PLAN

We fix and clean your credit, then position you behind an aged corporation so you are ready for funding.

Real talk: even with an aged corporation, lenders still check your personal credit when you request funding. The corporation gives the business history. Your credit still has to be clean. That is why we do both.

Researched and Verified Before Purchase

- ✓ No hidden debts or liabilities
- ✓ No liens against the corporation
- ✓ No fraud or bad history attached
- ✓ No lawsuits or judgments
- ✓ Taxes and filings in good standing
- ✓ Age and incorporation verified in state records

If it does not check out clean, it does not get sold.

An aged corporation is a head start, not a guarantee. Funding decisions are made by lenders based on the full application, including personal credit.
